

THE FERINITE UNION [TFU]

SIMPLE AND COMPLEX REACTIONS CHART & BUILDING REQ. FOR CONSTRUCTION COMPONENTS (Skills and BPO not included) Author: pix0r - 28/02/2006

Hypersynaptic fibers	Ferite Carbide	Syramic fibers	Crystalline carbonide	Fullerides	Nanotransistors	Ferrogel	Phenolic composites	Titanium Carbide	Fermionic Condensates	Tungsten carbide	AMMR	CALLBAT
2					1				1	8	antimatter reactor unit	gravimetric sensor cluster
					2				6	20	emp pulse generator	graviton pulse generator
					2				6	20	fusion thruster	graviton reactor unit
1					1				3		laser focusing crystals	magpulse thruster
					1				8	1	linear shield emitter	quantum microprocessor
					1				3	12	nanoelectrical microprocessor	scalar capacitor unit
					1				1	12	radar sensor cluster	superconductor rails
2					5				1	12	tesseract capacitor unit	sustained shield emitter
1					5				1	12	tungsten carbide armor plate	titanium diboride armor plate
					15				1	24	crystalline carbonide armor plate	deflection shield emitter
					1				1	24	fusion reactor unit	electrolytic capacitor unit
					1				1	3	ion thruster	fermite carbide composite armor plate
					1				3		magnetometric sensor cluster	laser sensor cluster
					1				1	3	oscillator capacitor unit	nanomechanical microprocessor
					5				1		particle accelerator unit	nuclear pulse generator
					2				6		photon microprocessor	nuclear reactor unit
					2				1	1	plasma pulse generator	plasma thruster
					1				1		pulse shield emitter	thermonuclear trigger unit
